### DETAILED ACTION

#### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

- 1058  
4/9/03
2. Claims 9-16 are being rejected under 35 U.S.C. 102<sup>(e)</sup>~~(a)~~ as being anticipated by Uchiyama et al. (U.S. Patent # 6,534,751).

As to claim 9, Uchiyama et al. shows, referring to figure 7, a ceramic substrate 2 having a conductor layer 5 formed inside and there is a supporting case 11. There is a connection between the conductor layer 5 and the external terminal 61. The manner in which the connection between the conductor layer and the external terminal is performed is not being given any patentable weight.

As to claim 10, Uchiyama et al. discloses using an elastic body to make connections between the terminal and other conductor layers.

As to claims 11 and 13, the connection is made through a non-oxidizable metal layer 6.

Art Unit: 2826

As to claims 12 and 14-16, the connection between the conductor layer and the external terminal is performed on a face of the substrate opposite the face for processing the semiconductor.
